

Text Chemistry Review

[Text Chemistry Review](#) is every woman's go-to-guide to finding love in a world where text messages are the preferred means of communication. Gone are the days of phone calls where you could hear the person's tone and determine what they're feeling or thinking. Everything is done through text messages now and unfortunately, that makes the already-complicated-task-of-dating even more complicated. Fortunately, *Text Chemistry* is here to guide you along the way to make sure your text messages don't screw up your dating game.

What is Text Chemistry About?

Did you know that sending texts with "lunch, drinks or dinner" can increase your chances of getting a response from a potential beau by over 70%? And this is only one statistics associated with texting and dating. Use "lmfao" for over 193% chance of getting a response compared to "rofl" which receives 13% fewer responses; use "interesting" for 92%; "funny" for 108% more responses... The stats go on. Needless to say, there is a secret to text messaging in today's dating world.

Text Chemistry is an online program that teaches you all of those secrets to make sure that you're doing the right things (and avoiding texting mistakes) to increase your chances of finding love in this digital age. It covers everything you could imagine, from deciphering confusing text messages to sending emojis, avoiding awkward requests for nudes and more. All of this is broken down into a three-part process that's designed to provide you with the information you need to succeed, and the steps you need to turn your newfound knowledge into action. These parts are:

- Part 1: The Rules for Texting

- Part 2: What to Text Men to Attract and Win Them Over
- Part 3: What to Text Him When...

Now, before I go into explaining these more in depth, let's first take a look at what you receive when you start the program:

- Written Manual
- 13 Video Series
 - Intro
 - Women's Speak
 - How to Properly Use Jealousy
 - Visual Language
